

# CHICKEN TRACKER MOUNTING INSTRUCTIONS

## John Deere, Kinze, & White Planters (2" TINES)

*(Read Instructions Completely before Beginning Installation)*

**Before working on your planter or drill**

**DANGER:** When storing or working on the planter or drill always install cylinder stops or place the planter or drill on stands to prevent personal injury or damage to the attachments.

### Mounting Instructions

Before you begin, verify all items listed in the "package contents" table at the right.

**Step #1:** Remove the original closing wheels from your planter.

**Step #2:** Put the Chicken Tracker wheel in the place of the original wheel. Tines can be directed either way, but we recommend they run as **shown below** (tips down when viewing from the back of the planter).

**Step #3:** When mounting Chicken Track wheels, measure the space between the tips of the bottom spoke on each wheel. **There needs to be 2"- 2.5" distance between the center of the wheels** at this point.

**You may need to insert washers or spacers on the inside of each wheel** in order to achieve this distance. One 1/2" spacer and one 1/4" spacer are provided with the kit.

Chicken Tracker Package Contents (per single side)	
Item	Quantity
Chicken Track Press Wheel.....	1
1/2" Spacer.....	1
1/4" Spacer.....	1
Instruction Sheet.....	1
