

CHICKEN TRACKER™ MOUNTING INSTRUCTIONS

13" & 16" Gauge Wheel

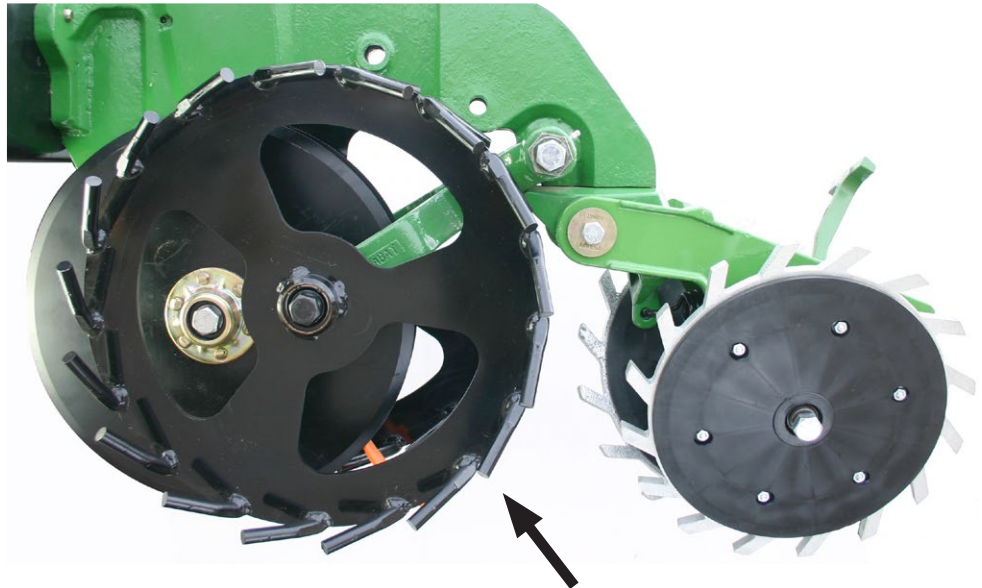

Before working on your planter or drill

DANGER: When storing or working on the planter always install cylinder stops or place the planter on stands to prevent personal injury or damage to the attachments.

PLEASE: Read instructions completely and verify all package contents before beginning installation.

- #1:** Remove the original gauge wheels from your planter.
- #2:** Put the Chicken Tracker gauge wheel in the place of the original wheel. Tines can be directed either way, but we recommend they run pointed down in the back.
- #3:** Insert the original bolt and bushing back through the planter and Chicken Tracker. Tighten.
