Before working on your planter or drill

DANGER: When storing or working on the planter always install cylinder stops or place the planter on stands to prevent personal injury or damage to the attachments.

PLEASE: Read instructions completely and verify all package contents before beginning installation.

FUNCTIONS OF RED LAMP

1. On steadily if switch is on and controller is operating normally.
2. Flashes steadily when in HOLD.
3. If there is a problem with the wiring or motor, the light will flash to indicate the system status.
   - For instance, if the motor leads are disconnected the light will flash once, pause, flash once, pause, etc.
   - If the console shuts down due to thermal overload due to a shorted motor or motor leads, the lamp will flash twice, pause, flash twice, pause, etc.
   - If other system problems occur requiring a call to Micro-Trak Service, please count the number of flashes to help with troubleshooting.

WARNING: DO NOT connect the motor leads (orange and blue wires) to the battery or power supply. Non-warranty damage will result if the motor leads are connected to the battery or power supply.
